4. Having a link to the client's Web Site from as many other Web Sites as possible should also increase the chances of the client's Web Site being listed higher in various Search Engines.
5. Reregistering and changing a Web Site periodically will help to ensure Search Engines re-index the Listing.
6. Some of the more popular Search Engines charge extra for priority placement. DebWeb can arrange this at the client's request. Additional fees will need to be paid in advance at the current rate for each Search Engine.
